

Our Company's Pledge to You HIPAA Notice of Privacy Practices Uses and Disclosures of Health Information

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

This notice is intended to inform you of the privacy practices followed by the **The King's Academy** Group Health Plan. It also explains the federal privacy rights afforded to you and the members of your family as plan participants covered under a group health plan. As a plan sponsor **The King's Academy** often needs access to health information in order to perform plan administrator functions. We want to assure the plan participants covered under our group health plan that we comply with federal privacy laws and respect your right to privacy. We require all members of our workforce and third parties that are provided access to health information comply with the privacy practices outlined below.

Health Care Operations. We use and disclose health information about you in order to perform plan administration functions such as quality assurance activities, resolution of internal grievances, and evaluating plan performance. For example, we review claims experience in order to understand participant utilization and to make plan design changes that are intended to control health care costs.

Payment. We may also use or disclose identifiable health information about you without your written authorization in order to determine eligibility for benefits, seek reimbursement from a third party, or coordinate benefits with another health plan under which you are covered. For example, a health care provider that provided treatment to you will provide us with your health information. We use that information in order to determine whether those services are eligible for payment under our group health plan.

Treatment. Although the law allows use and disclosure of your health information for purposes of treatment, as a plan sponsor we generally do not need to disclose your information for treatment purposes. Your physician or health care provider is required to provide you with an explanation of how they use and share your health information for purposes of treatment, payment, and health care operations.

As permitted or required by law. We may also use or disclose your health information without your written authorization for other reasons as *permitted* by law. We are *permitted* by law to share information, subject to certain requirements, in order to communicate information on health-related benefits or services that may be of interest to you, respond to a court order, or provide information to further public health activities (e.g. preventing the spread of disease) without your written authorization.

We are also permitted to share health information during a corporate restructuring such as an merger, sale, or acquisition. We will also disclose health information about you when *required* by law, for example, in order to prevent serious harm to you or others.

Pursuant to your Authorization. When required by law, we will ask for your written authorization before using or disclosing your identifiable health information. If you choose to sign an authorization to disclose information, you can later revoke that authorization to cease any future uses or disclosures.

Right to Inspect and Copy. In most cases, you have a right to inspect and copy the health information we maintain about you. If you request copies, we will charge you \$0.05 (5 cents) for each page. Your request to inspect or review your health information must be submitted in writing to the person listed below.

Right to an Accounting of Disclosures. You have a right to receive a list of instances where we have disclosed health information about you for reasons other than treatment, payment, health care operations, or pursuant to your written authorization.

Right to Amend. If you believe that information within your records is incorrect or if important information is missing, you have a right to request that we correct the existing information or add the missing information.

Right to Request Restrictions. You may request in writing that we not use or disclose information for treatment, payment, or other administrative purposes except when specifically authorized by you, when required by law, or in emergency circumstances. We will consider your request, but are not legally obligated to agree to those restrictions.

Right to Request Confidential Communications. You have a right to receive confidential communications containing your health information. We are required to accommodate reasonable requests. For example, you may ask that we contact you at your place of employment or send communications regarding treatment to an alternate address.

Right to Receive a Paper Copy of this Notice. If you have agreed to accept this notice electronically, you also have a right to obtain a paper copy of this notice from us upon request. To obtain a paper copy of this notice, please contact the person listed below. We are required by law to protect the privacy of your information, provide this notice about information practices, and follow the information practices that are described in this notice. We may change our policies at any time. Before we make a significant change in our policies, we will provide you with a revised copy of this notice. You can also request a copy of our notice at any time. For more information about our privacy practices, contact the person listed below. If you have any questions or complaints, please contact:

Carolyn Corstorphine
562 Britton Avenue
Sunnyvale, CA 94085-3841
